Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

(b) they raise the issue of new matter (see Note below);					
(c)  they are not deemed to place the application issues for appeal; and/or	in better form for appeal by mat	erially reducing or simplifying the

5. ☐ The a) ☐ affidavit, b) ☐ exhibit, or c) ☐ request for reconsideration has been considered but does NOT place the application in condition for allowance because: See Continuation Sheet.

10. Other: \_\_\_\_

Claim(s) rejected: 1-8, 10-25.

Continuation of 5. does NOT place the application in condition for allowance because:

Applicant argues the same issue which had been addressed in the Final Rejection. Applicant argues that the prior art of record Holtz (6,433,800) taught the representation of an action as an icon -- namely the task of addressing an email (Request for Reconsideration Page 3) in Holtz column 3, lines 8-10, quoted: "Icons representing the addressing of the e-mail message..." It is the Office contention that this passage and the entire Holtz's disclosure, in particular in column 6, lines 39-42, quoted: "An embodiment of the present invention may be implemented in conjunction with an address card program." Further, in Figure 3, Holtz disclosed object(s) 44. If (54) is a "mail to" option, then (44) is an address. If (44) is a "mail to" option, then (54) is an address. Holtz taught "addressing" [col. 3, lines 8-10], and icons (44) and (54) represent actions and/or objects (e.g., address). Since "addressing" inherently requires an address, thus it was taught.

In regarding the status of other dependent claims:

Claim 9 is objected to as being allowable if rewritten in independent form, additionally overcome recognized antecedent basis problems.
